

# FP SERIES

FLATBED EMBROIDERY MACHINES

//////  
FPA SERIES | FPB SERIES | FPC SERIES

# MAIN FEATURES

- Designed for mass production
- 10-inch and 15-inch Touch Screen Panels
- Design preview on USB and machine memory
- Customizable embroidery area
- Maximum speed: 1200 spm
- Large memory capacity: 100 million stitches or 1000 designs
- Automatic color change
- Automatic thread trimmer
- Machine reads multiple design formats such as DSB, DST, ZSK and FDE
- Networkable. USB input or direct transmission from PC via LAN port.
- Design transfer via USB
- Perfect for mass production of patches
- Multiple languages: English, Chinese, Spanish, Portuguese, Turkish, French, German, Russian, Vietnamese, Korean, Arabic, Italian, Polish and more
- Selected high-strength steel, well-designed frame structure, fully automatic CNC machining
- Newly designed thread trimming drive mechanism, with more thread trimming torque
- The new head drive transmission mechanism optimizes the synchronization time of the thread take-up mechanism, significantly improves the embroidery quality, and achieves high speed, low noise, and low thread breakage.
- The selection of the ball screw color-changing drive mechanism with higher transmission efficiency greatly ensures higher speed and more stability.
- The newly designed reinforced embroidery frame drive rail seat is adapted to the high-quality circular dust-proof linear slide rail, which ensures high-speed response of the embroidery frame.

# PANEL FEATURES

## FPA 10" A18 / FPB 12" A68 P / FPC 15" A98 TECHNICAL SPECIFICATIONS

- Easy to operate
  - Automated LCD shutdown
  - Large memory capacity: 100 million stitches or 1000 designs
  - Flexible multi-task shifting key
  - Time saving and improved efficiency: Stores frequently used parameters and color-changing order per design
  - Password protected. Parameters can divide, other parts of parameter can restore or recover.
  - Supports multi-design input at one time
  - Network connection available
- Network production efficiency using LAN
  - Frame auto-function for patch embroidery
  - Main shaft stops correctly at 100 degrees
  - Automatic save and store function per embroidery design
  - Mechanical maintenance, debugging, and testing available
  - Multiple languages: English, Chinese, Spanish, Portuguese, Turkish, French, German, Russian, Vietnamese, Korean, Arabic, Italian, Polish and more
  - Design output available via USB
- Repetition embroidery available
  - Automated return to point of origin
  - Efficient and easy design compiling
  - Easy 28 letter-based design management
  - Design editing functionality
  - Flexible speed adjusting
  - Automatic thread trimmer
  - Thread break detection and warning
  - Automatic color change
  - Special embroidery function available

# RAMP UP PRODUCTION

Available in up to 40 heads, this high-speed flatbed machine is perfect for scaling production.

FP series can be customized according to customer needs, the actual product shall prevail

# OPTIONAL ADD-ONS

## BROADEN YOUR POSSIBILITIES WITH THESE AFFORDABLE AND EASY-TO-USE ADD-ONS!

These attachments make embroidery effects a breeze. Explore your creativity and embellish your designs with sequin, boring, cording or beads with these optional devices and accessories.

### ACCESSORIES

#### Boring Needle

This device pierces holes into embroidered designs and fences raw edges with stitches creating a stunning effect rapidly.

*\*For a list of all compatible accessories, contact a product specialist.*

### DEVICES

#### Sequin Device (SQ-E)

Attach the optional sequin device to your embroidery machine to add a pop of sparkle to your designs.

#### Cording Device (CD-E)

Easily create an embroidery effect with the cording device, which lays cord on fabric and attaches the cord with transparent zigzag stitches.

#### Laser Cutting Device

High powered laser beam to cleanly cut a specific design on materials such as patches, labels, and many other fabric decorations. All these can be achieved with high precision and speed.

#### Twin Sequin Device (2SQ-E)

Double your sequin capabilities with double the color and coil with the optional twin sequin device.

#### Double Twin Sequin Device (4SQ-E)

Create up to 4 colors and coils at a time with the double twin sequin device.

#### Bead Device

Explore your creativity to include intricate bead work with the optional bead device.

*\*For a list of all compatible devices, contact a product specialist.*
